

Job Opportunity - Panel Fabricator

Invermere, BC

High performance building
+ Off-site construction

Collective Carpentry is in search of a motivated Panel Fabricator for our growing team.

Collective Carpentry, a residential construction company which designs and fabricates super-insulated panelized building assemblies at a facility in Invermere, British Columbia, and delivers and installs them across western Canada and the western United States. The company was established in 2006 as a General Contractor serving the Columbia Valley in 2006, and has been operating in its current facility since 2014, with plans to grow into a larger facility in 2022. The company supports architects, clients, and other building professionals in building to Passive House standards of energy efficiency, comfort, and performance as a means to providing housing, social, and climate solutions.

The ideal Panel Fabricator candidate will have an interest in sustainable, ecologically-minded building practices and be comfortable working in a small company environment. He or she will possess a moderate level of carpentry experience, as well as interest in improving systems, adopting new technologies, and working as a member of a strong team. He or she is punctual, detail-oriented, able to focus individually or participate in collaborative tasks, and interested in opportunities to take on additional responsibilities from inventory and logistics management to shop and production management. See more about our company's team and values at collectivecarpentry.com.

The Panel Fabricator role is a **full-time role** that will be based on site in Invermere, BC. *Part-time possible depending on circumstances.*

Responsibilities include:

- Participate in regular safety and goal-setting meetings with the rest of the shop team
- Follow production shop drawings and cut lists to perform various shop tasks
- Use saws, nailers, drivers, staplers, insulation blowing equipment, overhead cranes, forklifts, telehandlers, and other tools and machinery
- Assist with proper maintenance of tools and equipment
- Keep a clean, tidy work space and participate in the proper material handling and receiving, storage, and use procedures
- Perform quality control checks, record panel fabrication data, and contribute to production process improvements
- Assist on Canadian project installs - requiring travel to and from jobsite for 1-2 weeks per project - as needed
- Positively contribute to a safe, inclusive, fun, and rewarding work environment!

Collective Carpentry offers full-time employees competitive salaries, additional benefits, educational opportunities, and a decidedly social, fun, and hard-working work environment. Collective Carpentry believes in diversity, inclusion, and providing opportunities for disadvantaged and marginalized communities.

Interested candidates, please send a resume and cover letter to info@collectivecarpentry.com.
